

**Name, age & hobby's – Amy Harms (53) - LACDR**

- Playing cello
- Kayaking

**In which institute/organization are you working?**

Leiden Academic Centre for Drug Research

**What's your role in VOILA? What would be the best outcome for you?**

I will coordinate improvements in our MS-based metabolomics platforms and use these platforms to measure gut, immune, metabolic and brain health and ageing markers in VOILA cohort samples.

**Mention your Pension. What will you be doing?**

I hope to work as long as possible.
