

**Name, age & hobby's**

**Lieke Lamont – 32 years**

Running, cycling, pilates, and spending time with my family.

**In which institute/organization are you working?**

Leiden Academic Centre for Drug Research

**What's your role in VOILA? What would be the best outcome for you?**

I am postdoc and coordinate RL2. I focus on the technological improvements of metabolomics signaling lipids platform so that large cohorts can be analysed smoothly. The best outcome for me would be that we can provide high quality metabolomics data that can give us insight and understanding in the ageing process.

**Mention your Pension. What will you be doing?**

My pension isn't really on my mind yet.. Let's start with staying healthy until then and spend time on my hobbies.
