

Name, age & hobby's - Peter L.J. de Keizer (38)

- RL5 & SMARTAGE
- 38Y
- Cooking, semi-long distance running (anti-aging!), traveling
- Promoting anti-aging research to lay public

In which institute/organization are you working?

- 1) UMC Utrecht (Asst. Prof. Senescence in Cancer and Aging)
- 2) Cleara Biotech B.V. (Co-Founder and Managing Director)

What's your role in VOILA? What would be the best outcome for you?

Together with colleagues at the ERIBA Groningen and LUMC Leiden, my group at the UMC Utrecht aims to

1. Identify new biomarkers for (subtypes of) cellular senescence
2. Develop compounds to selectively eliminate (subtypes of) cellular senescence
3. Employ 1+2 against musculoskeletal pathologies associated with aging
4. Bridge know-how form 1-3 to other Voila research lines, e.g. overlap of senescence w. general aging markers

Mention your Pension. What will you be doing?

1. Spend time with loved ones, doing fun things like visiting natural reserves, historic sites and shared activities.
2. Explore different areas of science and Biology. Maybe some more history.
3. Philanthropic projects (if Cleara is successful)
