

Inge De Dobbeleer

Age: 51

Hobby: cycling, walking, yoga

In which institute/organization are you working?

Interscience BV/ SampleQ

What's your role in VOILA? What would be the best outcome for you?

We will contribute to the funding of the project.

The best outcome for us is keeping a close connection to the scientists involved for future collaboration projects. We are delivering flexible and smaller scale automated sample prep systems which we believe is an excellent addition to many life science research projects.

Mention your Pension. What will you be doing?

I will be having a very large Belgian beer every day in the pub. That is my plan and I am sticking to it!
