

Joyce Vriezen

Age: 51

Hobbies: Drawing (I just started an arts education), singing in a choir, music, cooking and skiing

In which institute/organization are you working? Leiden University Medical Center

What's your role in VOILA?

My role is administrative program manager. I will organize calls, meetings and will be responsible for communication of administrative and financial issues.

What would be the best outcome for you?

I hope the outcomes from VOILA will lead to an increase of the amount of healthy years for seniors. Besides this it would be great if VOILA leads to new future collaborations between research institutes and private partners.

Mention your Pension. What will you be doing?

I hope to own a French holiday home at that time. It would be great to visit this with my (grand)children, husband and friends, to enjoy cooking together, go for a ski trip and hike in the vineyards and mountains.
