

Name, age & hobbies

Marco Demaria

Age: 36

Hobbies: run, music, food & wine, travel

In which institute/organization are you working? ERIBA/UMCG

What's your role in VOILA? What would be the best outcome for you?

Understanding the role of cellular senescence in aging and dysfunctional tissues, and how senescent cells promote musculoskeletal disorders. My laboratory will characterize the heterogeneity of senescence-associated phenotypes in muscle, bone and cartilage with the focus to identify novel targets for therapeutic interventions

Mention your Pension. What will you be doing?

Besides keeping doing science, even when 'retired', I will also buy a vineyard and make wine.
