

Name, age & hobbies

Fatih Bogaards

27 Years old

Reading, writing, drawing, cooking, hiking and jogging.

In which institute/organization are you working?

LUMC/Molecular Epidemiology and WUR Department of Agrotechnology and Food Sciences

What's your role in VOILA? What would be the best outcome for you?

I am a PhD student working on combining data from different intervention studies. My focus will lie on intervention studies done in elderly. My best outcome would be to identify molecular predictors that increase or decrease the ageing process.

Mention your Pension. What will you be doing?

I will try to live an active lifestyle where I continue to work on my writing, drawing and hiking, as well as enjoying my free time.
